

Campers Policies

Please read policies and go over them with your camper. You will be asked to sign that you have read them. Keep this copy of the policies to review before camp.

- Campers should remain at camp for the entire week.
- In order for campers to have the best week possible, without distractions, campers are not allowed to have cellular phones. If there is an emergency, the GA Camp Director will call the parent or guardian.
- Camper is expected to cooperate with all camp leaders even those from another church.
- No electronic devices of any kind may be brought to camp.
- Parents should pick child up immediately if Camp Director calls for a behavioral problem or medical problem.

I understand my camper will be evaluated for anything contagious/infectious before being allowed to stay at camp.
