### **HISPANIC MINISTRY NEEDS**

The Spanish speaking, Hispanic population is increasing in Baldwin County. What a God given opportunity we have to share the gospel and minister to the Hispanic community. Our Association, the Alabama Baptist State Board of Missions and some of our churches, are partnering to establish a Southern Baptist Spanish speaking congregation. As this church is established, they will begin Bible studies in some of our communities where new churches may be started in the future.

We are currently seeking to call a full time, Spanish speaking, Hispanic church planter/pastor to lead this new congregation and new work. He will also serve on our associational staff.

There are currently a couple of needs and opportunities:

1. There is a need for affordable housing or a missions house where the new pastor and his family could live for a period of time.
2. There is still the opportunity for more of our churches to partner with us financially in starting this new ministry.

If God lays this upon your heart please call me at the associational office. (251-945-5112)

### **COWBOY CHURCH**

A couple of years ago I began to speak with some wonderful folks who came by the office and felt led to start a Cowboy Church in Baldwin County. They have prayed and worked hard to establish this new work.

The work was recently launched and they are meeting in Robertsedale at a temporary location. Gary Brewster, a committed Southern Baptist is the pastor.

The Cowboy Church of Baldwin County is a "church for the unchurched." They are committed to reaching into the western culture to those without Christ. This could include those who enjoy the beautiful rural life that we are blessed with in Baldwin County, those who identify with country and western music or just love western movies. However, the focus of this ministry is reaching people who do not know Christ as Lord and Savior and do not relate to any church.

While they are meeting a temporary location they need a building to rent. A warehouse or barn type building with heating and cooling, especially in a rural setting would be ideal. Please contact me if you know of possibilities.
